

RECOVERY SPECIALIST

Position Description

The Recovery Specialist is responsible for coordinating the recovery and repossession of equipment from defaulted leases. This position requires investigating and skip tracing missing customers as well as working with a variety of third party entities to gather information.

Company

For the past 20 years, Beacon Funding Corporation has been providing equipment financing solutions to all types of organizations, new and established, throughout a variety of industries in the United States and Canada. Headquartered in Northbrook, Illinois, Beacon's nationwide sales and support team is close and accessible to its network of equipment vendor partners and business client base.

Our Focus Equipment manufacturers are faced with intense economic pressures. Equipment payment options need to be flexible, innovative, and competitive to allow companies to acquire the technology they need to grow and prosper. As a result, today's equipment manufacturers partner with financing companies like Beacon.

Job Responsibilities

- Coordinating in-house and third party technicians in recovery of equipment from defaulted leases
- Investigating and skip tracing missing customers and equipment
- Working with third party entities such as detectives, law enforcement agencies, and shipping companies in the recovery of equipment
- Investigating and obtaining valuations of recovered equipment for purposes of remarketing and legal documentation
- Working with in-house resources as well as third party remarketing agencies in disposing repossessed equipment

Job Requirements

- Associates Degree
- 4 or more years of experience in credit, collections and recovery
- Must be computer literate and have excellent communication skills
- Ability to work independently
- Prior work experience with a leasing company is a plus
