

**FOR IMMEDIATE RELEASE**

**Del Medical Systems Group Announces Del Medical Leasing Services**

*Del Global to Partner with Beacon Funding to Offer Lease Options*

**Franklin Park, IL – May 7, 2009 -- Del Global Technologies Corp. (OTCBB: DGTC) ("Del Global" or "the Company")** today announced that the company has partnered with Beacon Funding Corporation to provide the Del Medical leasing program which is currently being rolled out to Del Medical dealers nationwide.

The program provides a lease-to-own option that allows Del dealers to facilitate sales and provide more diversity for financing at a time when customers are trying to manage working capital more efficiently.

Mark Zorko, Chief Financial Officer of Del Global said, "No matter how beneficial it might be for customers to install equipment in their operations, we're still dealing with tight credit markets and a lack of available funding instruments. This exclusive leasing program complements our product portfolio to help our customers with financing."

Beacon's Shari L. Lipski said, "Many companies are delaying equipment acquisitions due to a lack of financing options. The Del leasing program allows business clients the ability to acquire new or upgrade equipment with a simple turn-key lease option when a cash purchase and/or traditional bank financing are not available."

Del Medical leasing program information is available through Del Medical dealers. For more information, please contact Jeff Armstrong at (800) 866-6396 or [JArmstrong@beaconfunding.com](mailto:JArmstrong@beaconfunding.com).
